# Quick Guide to Elnur's ECOHHR PLUS

Follow these steps to change the temperature of your ECOHHR PLUS

These steps will temporarily change the temperature.

**1.** Your heater's home screen should, by default, look like this.
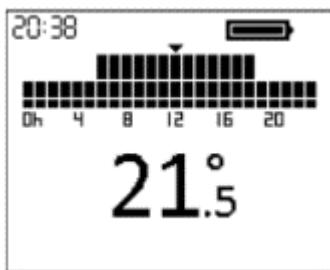

2. You can change the temperature by pressing the ⊞ or ⊟ buttons. The temporary change is retained until the next change of programmed period.

Follow these steps to change the temperature of your ECOHHR PLUS

These steps will permanently change the temperature.

1. Your heater's home screen should, by default, look like this.
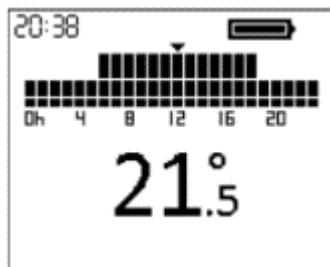

**2.** Hold down the ⚙ button until the display shows the settings menu.

3. Use the ➕ or ➖ button to move up or down until you get to the Programme Settings.

4. Press and release the `OK` button and the display will show the below.
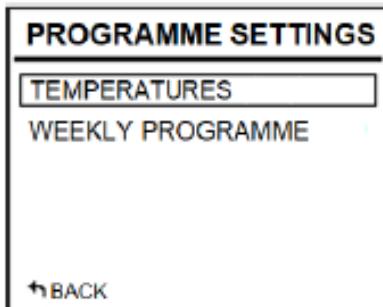

```
PROGRAMME SETTINGS
┌──────────────────────┐
│ TEMPERATURES         │
└──────────────────────┘
  WEEKLY PROGRAMME

  ↰ BACK
```

5. Press and release the `OK` button again and the display will show the below.

```
TEMPERATURES
┌──────────────────────┐
│ COMFORT        21.5° │
└──────────────────────┘
  ECO            18.0°
  ANTI-FROST        7°

  ↰ BACK
```
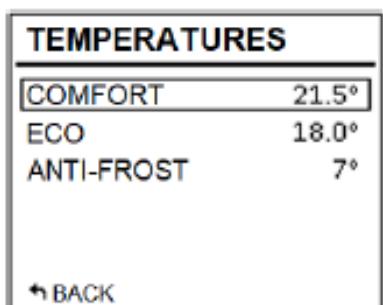

Use the `+` or `—` button to move up or down until you get to the

temperature mode that you want to adjust.

6. Press and release the `OK` button again and the display will show one of the below.

```
COMFORT

   21.°5
```

```
ECO

   18°
```

```
ANTI-FROST

   7°
```
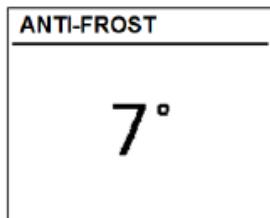

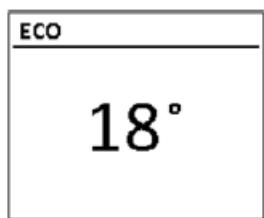

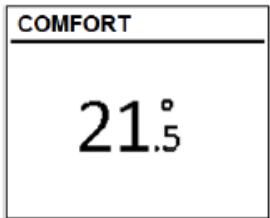

Use the `+` or `—` button to adjust temperature. Press the `⚙`

button until you return to the home screen.
